## BIOGRAPHY:

Soleil Nation is an 11-year-old musical and athletic prodigy whose journey from Manila, Philippines to Miami Beach, FL has been marked by relentless passion and achievement. Rooted in a cultural tradition where every child's voice is raised in song, she has not only embraced her heritage but also broadened her artistry across multiple disciplines—and most recently, captured the **Young Talent Big Dreams 2025 Original Composition** title with her award-winning song.

Her musical story began at age six, when curiosity led her to teach herself piano. Soon, her natural singing ability emerged, setting the stage for a remarkable career. Over the past two years, Soleil mastered the trumpet through the Miami Music Project's children's orchestra—so distinguished was her dedication that she earned "Student of the Year" honors in 2023. As a valued member of the Grammy-award-winning National Children's Chorus, she has stood out among America's finest young vocalists.

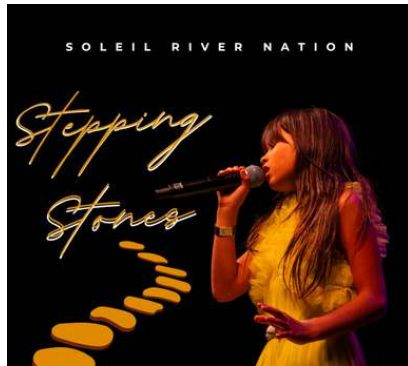

In early 2024, Soleil released her debut single, "Small Girl in a Big World," produced by Young Musicians Unite and YMU Studio—a heartfelt anthem of hope and ambition. Building on that success, she composed and performed "Stepping Stones," a sweeping original piece that won her the 2025 Young Talent Big Dreams Original Composition category, cementing her status as a rising star. Yet Soleil's talents extend far beyond music. An honor-roll student and repeated recipient of kindness awards, she is equally at home in athletic pursuits—capoeira, gymnastics, ice skating, hip-hop, ballroom, and breakdancing all showcase her discipline, versatility, and unshakeable commitment to excellence. As she continues to stack one achievement atop another, Soleil Nation exemplifies the harmony of cultural legacy, artistic innovation, and the unbounded promise of youth.
