BIOGRAPHY:

Soleil Nation, a 10-year-old musical and athletic prodigy originally from Manila, Philippines, now shines in Miami Beach, FL, exemplifying the rich cultural tradition of music and excellence that flows through her veins. Immersed in a culture where singing is almost an innate calling for every child, Soleil has transcended expectations by not only embracing her heritage but also expanding her talents across a broad spectrum of musical and athletic endeavors.

Her journey into the realm of music began at the age of 6 when Soleil, driven by curiosity and determination, taught herself to play the piano. Her vocal talents, as natural to her as speaking, emerged shortly thereafter, marking the start of a promising musical career. Soleil's musical talents extend to the trumpet, an instrument she has mastered over two years with the Miami Music Project's children's orchestra, earning her the "Student of the Year" award in 2023 for her exceptional contributions.

A key member of the Grammy award-winning National Children's Chorus, Soleil has proven her vocal prowess and dedication to her craft, standing out among the best young singers in the nation. Her ambitions and creativity soared to new heights in early 2024 with the release of her debut single, "Small Girl in a Big World," a poignant reflection of her journey and aspirations, produced under the guidance of Young Musicians Unite and YMU studio.

Beyond her musical achievements, Soleil is also a remarkable athlete, actively participating in capoeira, gymnastics, ice skating, hip-hop, ballroom and breakdancing. An honor roll student and has received numerous kindness awards. This diverse skill set highlights her versatility and commitment to excellence in all her endeavors.
